

include/temu-c/Support
/Assembler.h

```
graph TD; A["include/temu-c/Support/Assembler.h"] --> B["stdint.h"]; A --> C["temu-c/Support/Attributes.h"];
```

The diagram illustrates the header file dependencies for `include/temu-c/Support/Assembler.h`. It is shown in a grey box at the top. Two blue arrows point downwards from its bottom edge to two other header files: `stdint.h` (in a white box on the left) and `temu-c/Support/Attributes.h` (in a white box on the right).
