

temu_Buff

```
graph BT; A[temu_EthFrame] -.->|Data| B[temu_Buff];
```

The diagram illustrates a data flow from a source to a destination. At the bottom, there is a gray rectangular box labeled 'temu_EthFrame'. A vertical dashed purple line extends upwards from the top center of this box. At the end of this line is a solid purple arrowhead pointing upwards. To the right of the dashed line, the word 'Data' is written in black text. Above the arrowhead is another white rectangular box with a black border, labeled 'temu_Buff'. This indicates that data is being transferred from the 'temu_EthFrame' component to the 'temu_Buff' component.
