

temu-c/Support/Assembler.h

```
graph TD; A[temu-c/Support/Assembler.h] --> B[stdint.h]; A --> C[temu-c/Support/Attributes.h];
```

The diagram illustrates the include relationships for the file `temu-c/Support/Assembler.h`. It is represented as a root node at the top, with two arrows pointing downwards to its included files: `stdint.h` on the left and `temu-c/Support/Attributes.h` on the right. The root node is enclosed in a grey box, while the included files are in white boxes.
