

temu_E500TLBEntry

```
graph BT; A[temu_E500MMUIface] -.-> B[temu_E500TLBEntry];
```

The diagram illustrates a pointer relationship between two data structures. At the bottom, a gray-shaded box labeled 'temu_E500MMUIface' has a dashed purple line extending upwards. This line terminates in a solid purple arrowhead pointing to the bottom center of a white box labeled 'temu_E500TLBEntry' at the top. To the right of the dashed line, the text 'getTLB0Entry' and 'getTLB1Entry' is displayed, suggesting these are methods or fields associated with the 'temu_E500MMUIface' structure.

getTLB0Entry
getTLB1Entry
