

temu_Buff

```
graph BT; A[temu_EthFrame] -.->|Data| B[temu_Buff]
```

The diagram illustrates a data flow from a lower-level frame structure to a higher-level buffer. At the bottom, a gray rectangular box labeled 'temu_EthFrame' represents the source of the data. A dashed purple arrow points vertically upwards from this box to a white rectangular box labeled 'temu_Buff' at the top. The arrow is labeled 'Data' in the middle, indicating the type of information being transferred.
